

# Minnesota Rural Broadband Coalition

## Fact Sheet 2020

**Goal:** The Minnesota Rural Broadband Coalition and its supporters request the 2020 Legislature to fund the Border-to-Border Broadband Development Grant program with \$30 million base funding in the 2020 supplemental budget to achieve the state's 2026 broadband speed goal of 100 megabits per second (Mbps) download and 20 Mbps upload. Consistent and stable funding of the grant program is important to allow economic development agencies, local governments and others to be creative and collaborative in their approach to providing broadband services to these areas.

**Background:** The Legislature funded the Grant Program at \$40 million in the 2020-21 biennial budget, the largest multi-year investment in the state's history. However, the Office of Broadband Development received grant applications totaling \$70 million in requests for broadband infrastructure projects throughout the state. That leaves a \$30 million gap between need and available funds.

The Governor's Task Force on Broadband Report in 2018 recommended \$70 million per biennium in on-going funding. This level of funding will provide minimum broadband internet speeds of 25 Mbps/3 Mbps to the households and businesses that currently lack such service—and will help Minnesota achieve its statutory broadband speed goal of connecting all Minnesotans with broadband internet speeds of 100 Mbps/20 Mbps by 2026.

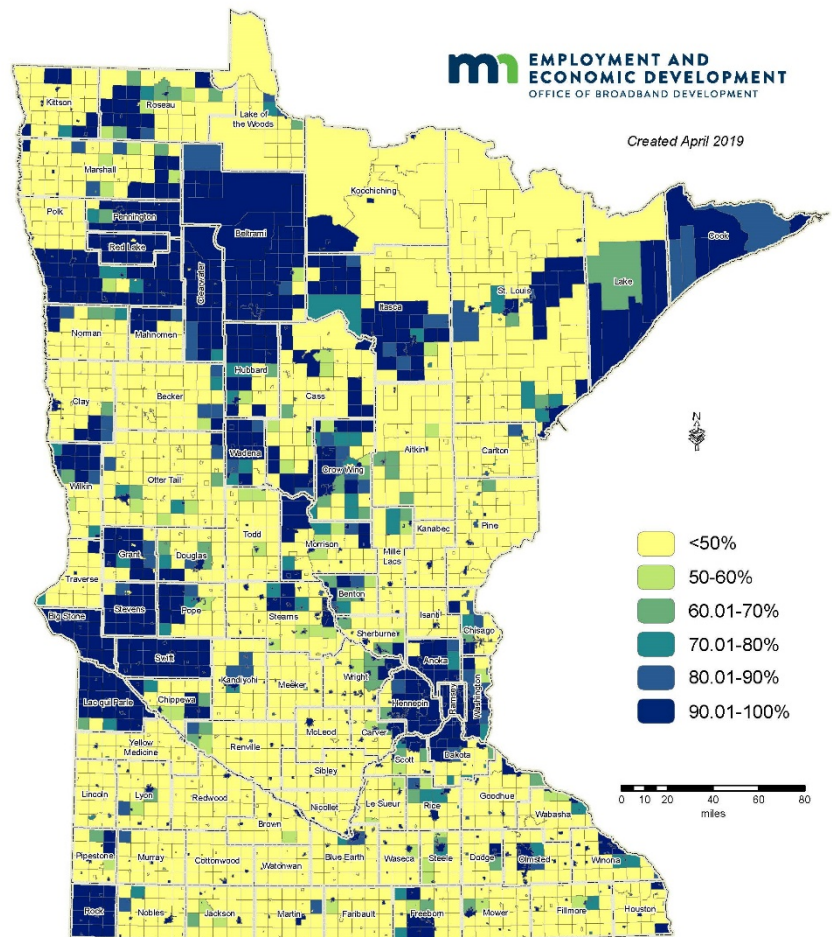

Broadband and internet speeds are improving across Minnesota. What we've achieved is a patchwork of highly successful areas, leaving behind many rural areas that are underserved and will have difficult time reaching the goal without state assistance grants. Many states across the country look to Minnesota as a national leader on rural broadband development. Despite all the good work that we've done, there is still much more to be done to ensure everyone has access.

**"Everyone in Minnesota will be able to use convenient, affordable world-class broadband networks that enable us to survive and thrive in our communities and across the globe."**
